★ The Kiss That Was #forhim - w4m (bayview) [x]

have you ever had a kiss
that took you on a bliss
and left you with shaking knees
the one you'd not dare miss

so intense it made you drift
a fall you'd not care lift
and your lot that is to shift
seems to budge in a swift

lose a grip, never a bit
those lips they seem to fit
and with less than a heartbeat
your souls are apt to meet

★ A Moment Of Truth #forhim - w4m (bayview)

My dear love, I wanted to share
My thoughts, my feelings and
What makes me despair
I want to share with you
What makes me happy; what makes me feel blue..
So you can sense that my love is honest and true.

Every day not a single minute
Passes by without you in it
Your skin, your voice, your body and your touch
All of these moments, I miss them so much.

You are so present, so deep in my heart
And our souls, I just know, will never part,
But circumstance and distance can be so overwhelming
They close doors and create doubt and we start blaming..

There are actions of mine and I know that for sure..
That feel so wrong, though my intentions are pure
They are painful and impossible to bear
And you feel it's all so unfair.

You can't run from yourself;
There is no place to hide
It just hurts you so deep
It hurts your heart and your pride.

Then I worry that if I continue to stay
Will it be wrong and will I be in your way?
I fear that I am not at all what you need
And that this truth will make my heart break and bleed.

Then I sit here and wipe away my tears
Wishing you could kiss away my fears

★ Dancing Under The Pale Moonlight #forhim - w4m (bayview)

We danced a dance to last for a life time.
You held me close and told me you loved me.
Forever, you shall be in my heart, soul and mind
I knew you wore the sweetest man,
so loving and so kind, to me.
We are meant to be my love and be in love for all times.
If you wore to come back to me, I would show you how much you mean to me.
Oh don't you remember us dancing under that pale moonlight.
Every thing was serene and beautiful.
Every thing was right.
You wore the one that held my hand and comforted me through the storms.
You are the sunshine, the wind and rain..
and wiped away all the sadness and pain.
Once again, you can be all these things to me, if only you return.
Please come back
my angel man
and tell me those words of love into my ear.
You have nothing to fear,
as I will always be true to you and want only you.
Together we can make the best couple around
my love for you will never cease.
So come back,
I hope and pray that that someday will be today.

★ You Were The One #forhim - w4m (bayview)

Through you I can be everything that I long to be
From walking in the park to dancing in the dark
To as far as ones imagination can see

Before you came into my life I was just an empty shell
Who thought that I would always have to
Remain sitting here in my own hell.

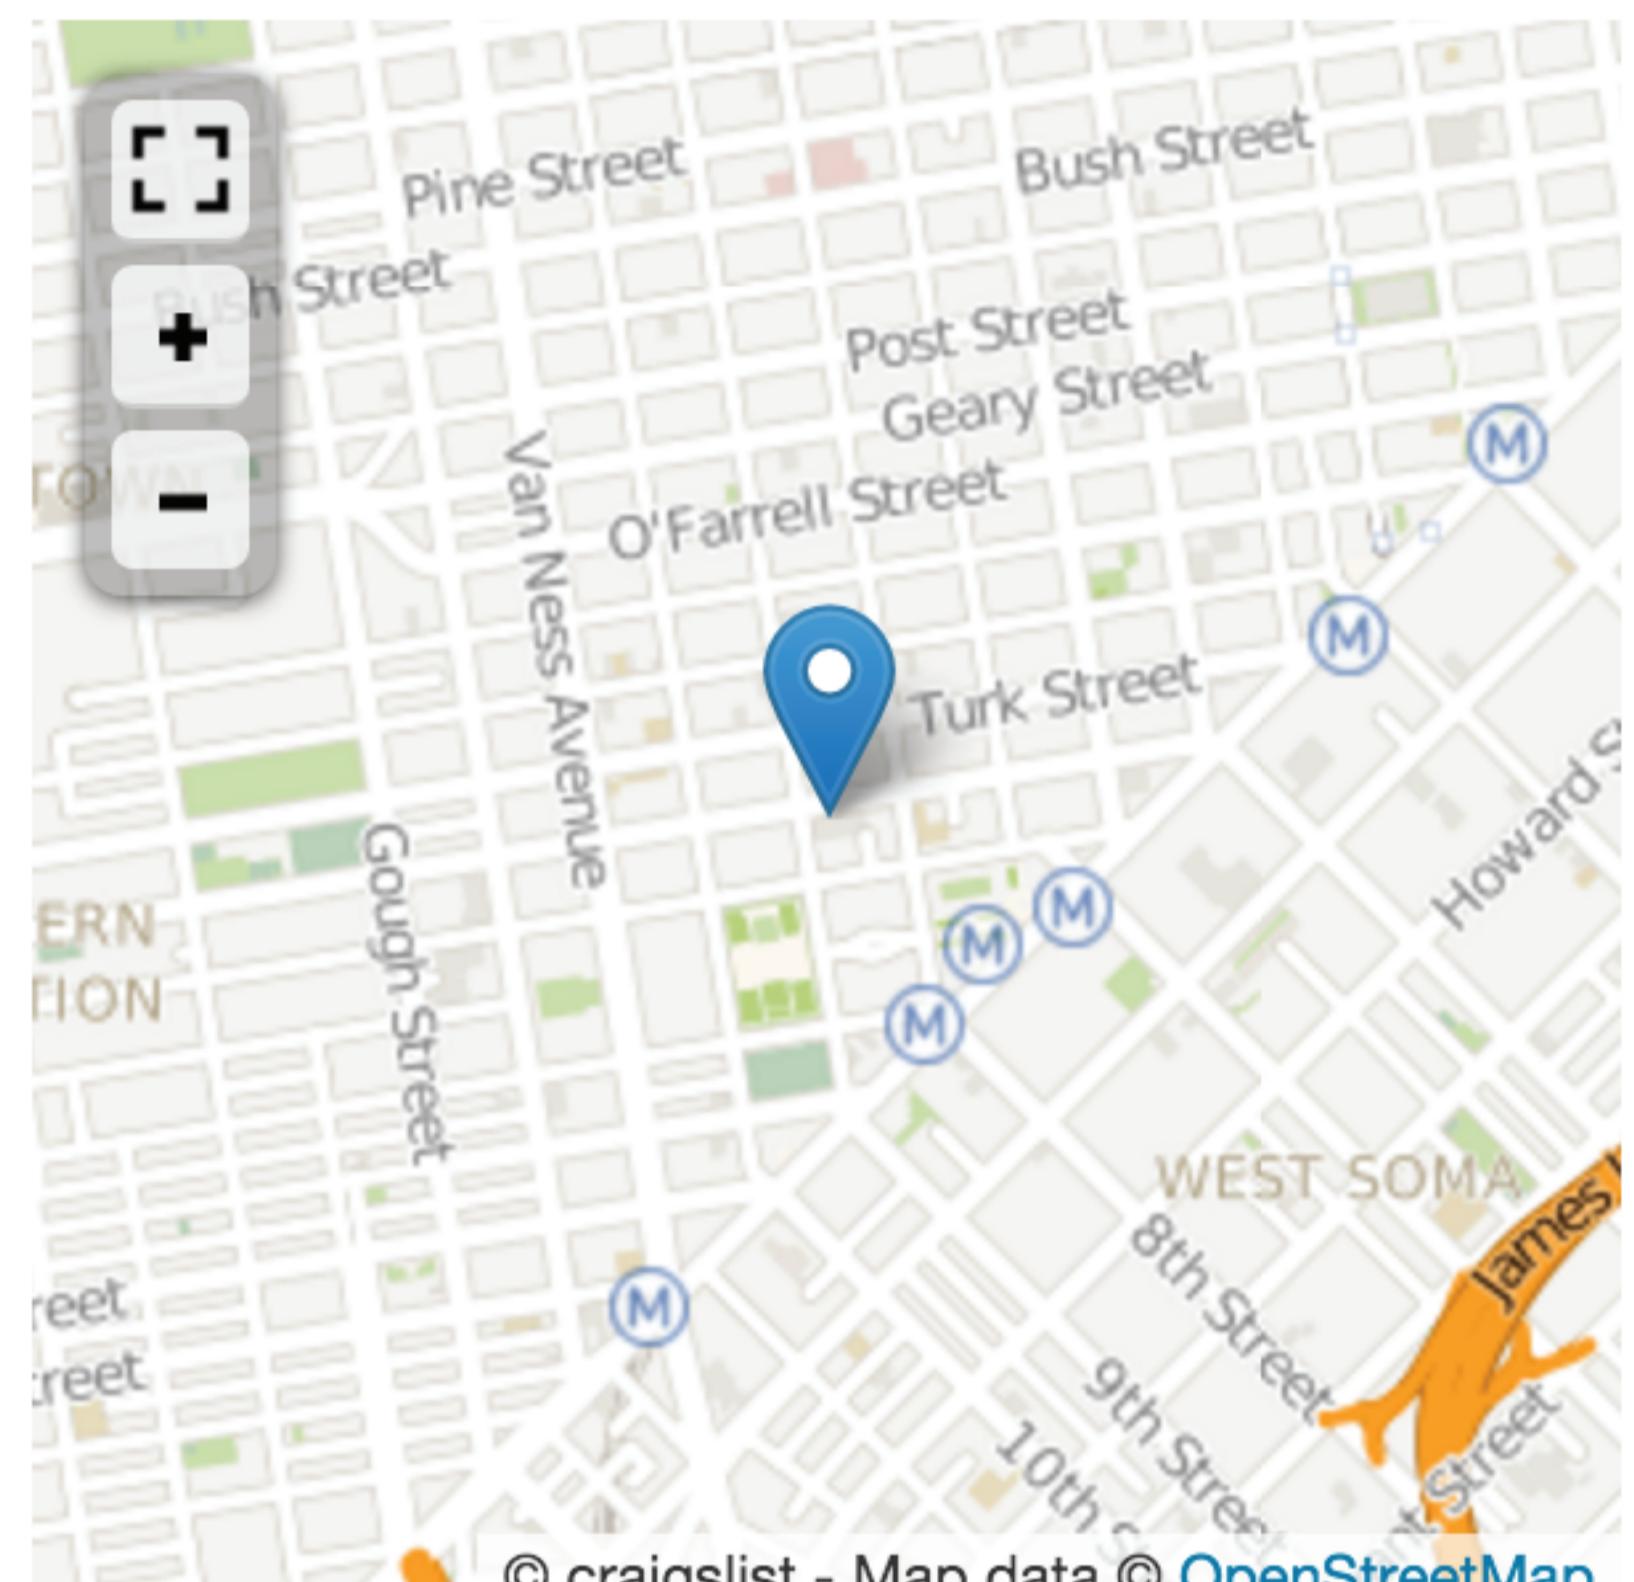

Everyone takes something for granted each and every day
From a cool drink of water, to the feel of one's touch
Until it's taken one does not realize how those
Simple things are missed so much

Often people live in the past while their
Present moves by so incredibly fast
When one needs to stop and smell the roses
Instead of letting them pass right by their own noses

People come and go through out your life
Like fleeting thoughts running through your mind
They also speak of kismet; many never get it,
some never know it
We don't choose it because it chooses us.

You were the one that came into my life
You found a place in my heart
So from this moment on we will never be apart.

★ You Mean The World To Me #forhim - w4m (bayview) [x]

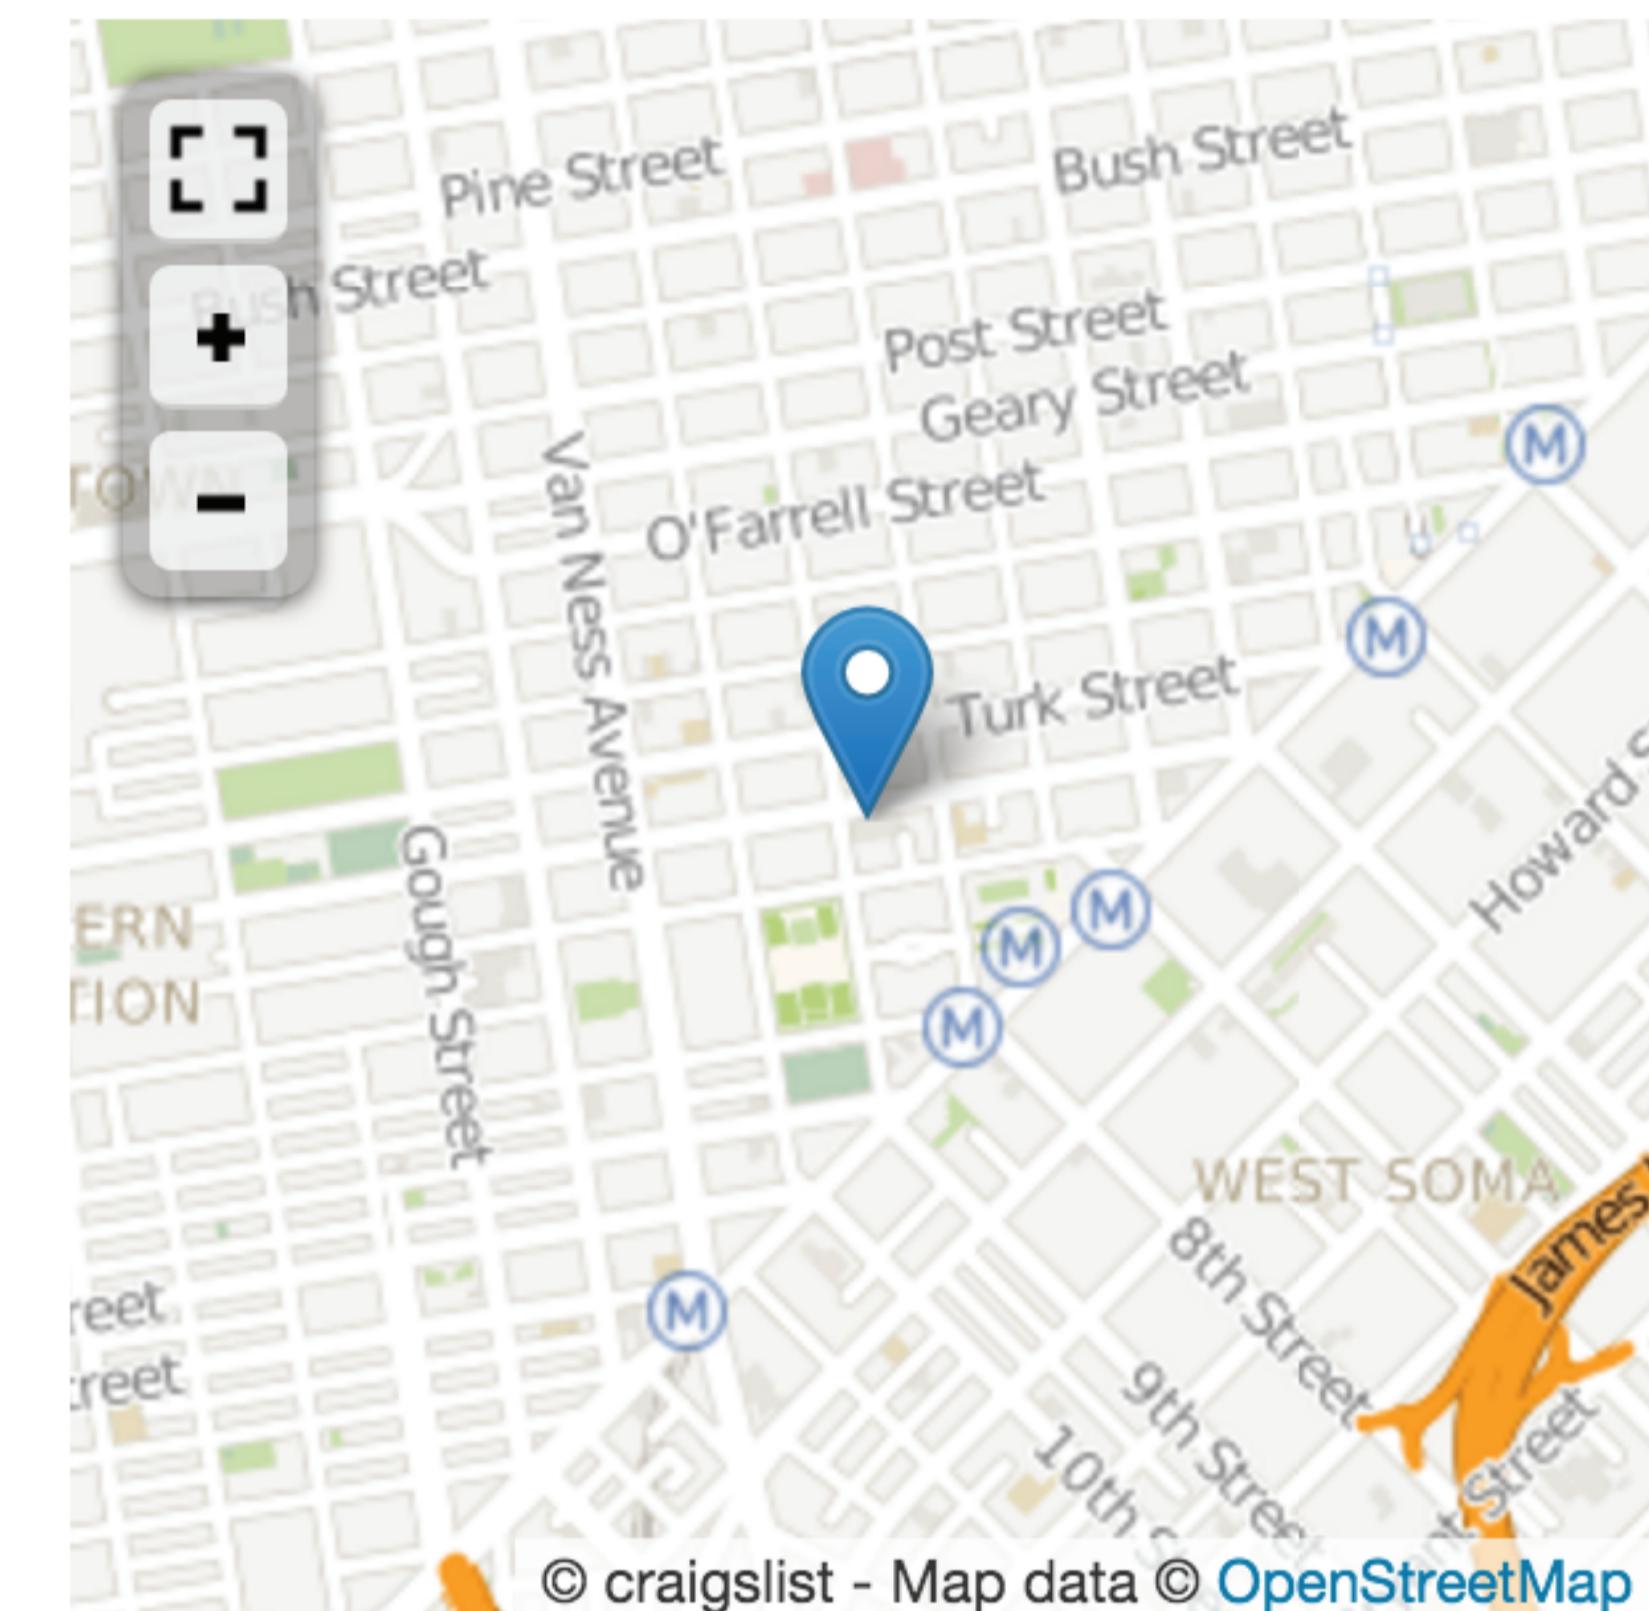

You mean the world to me
Nothing will ever come between us
You will always be in my heart
Your spot will never be taken
by anyone else ever

I will love you forever
No matter how much we fight
We'll be okay
You mean the world to me
and always will forever

You mean the world to me
unlike anybody I call my friend
the feeling I have
is quite different

You mean the world to me
and always will
For no one else
makes me feel this way

★ Since The Day We Met #forhim - w4m (bayview)

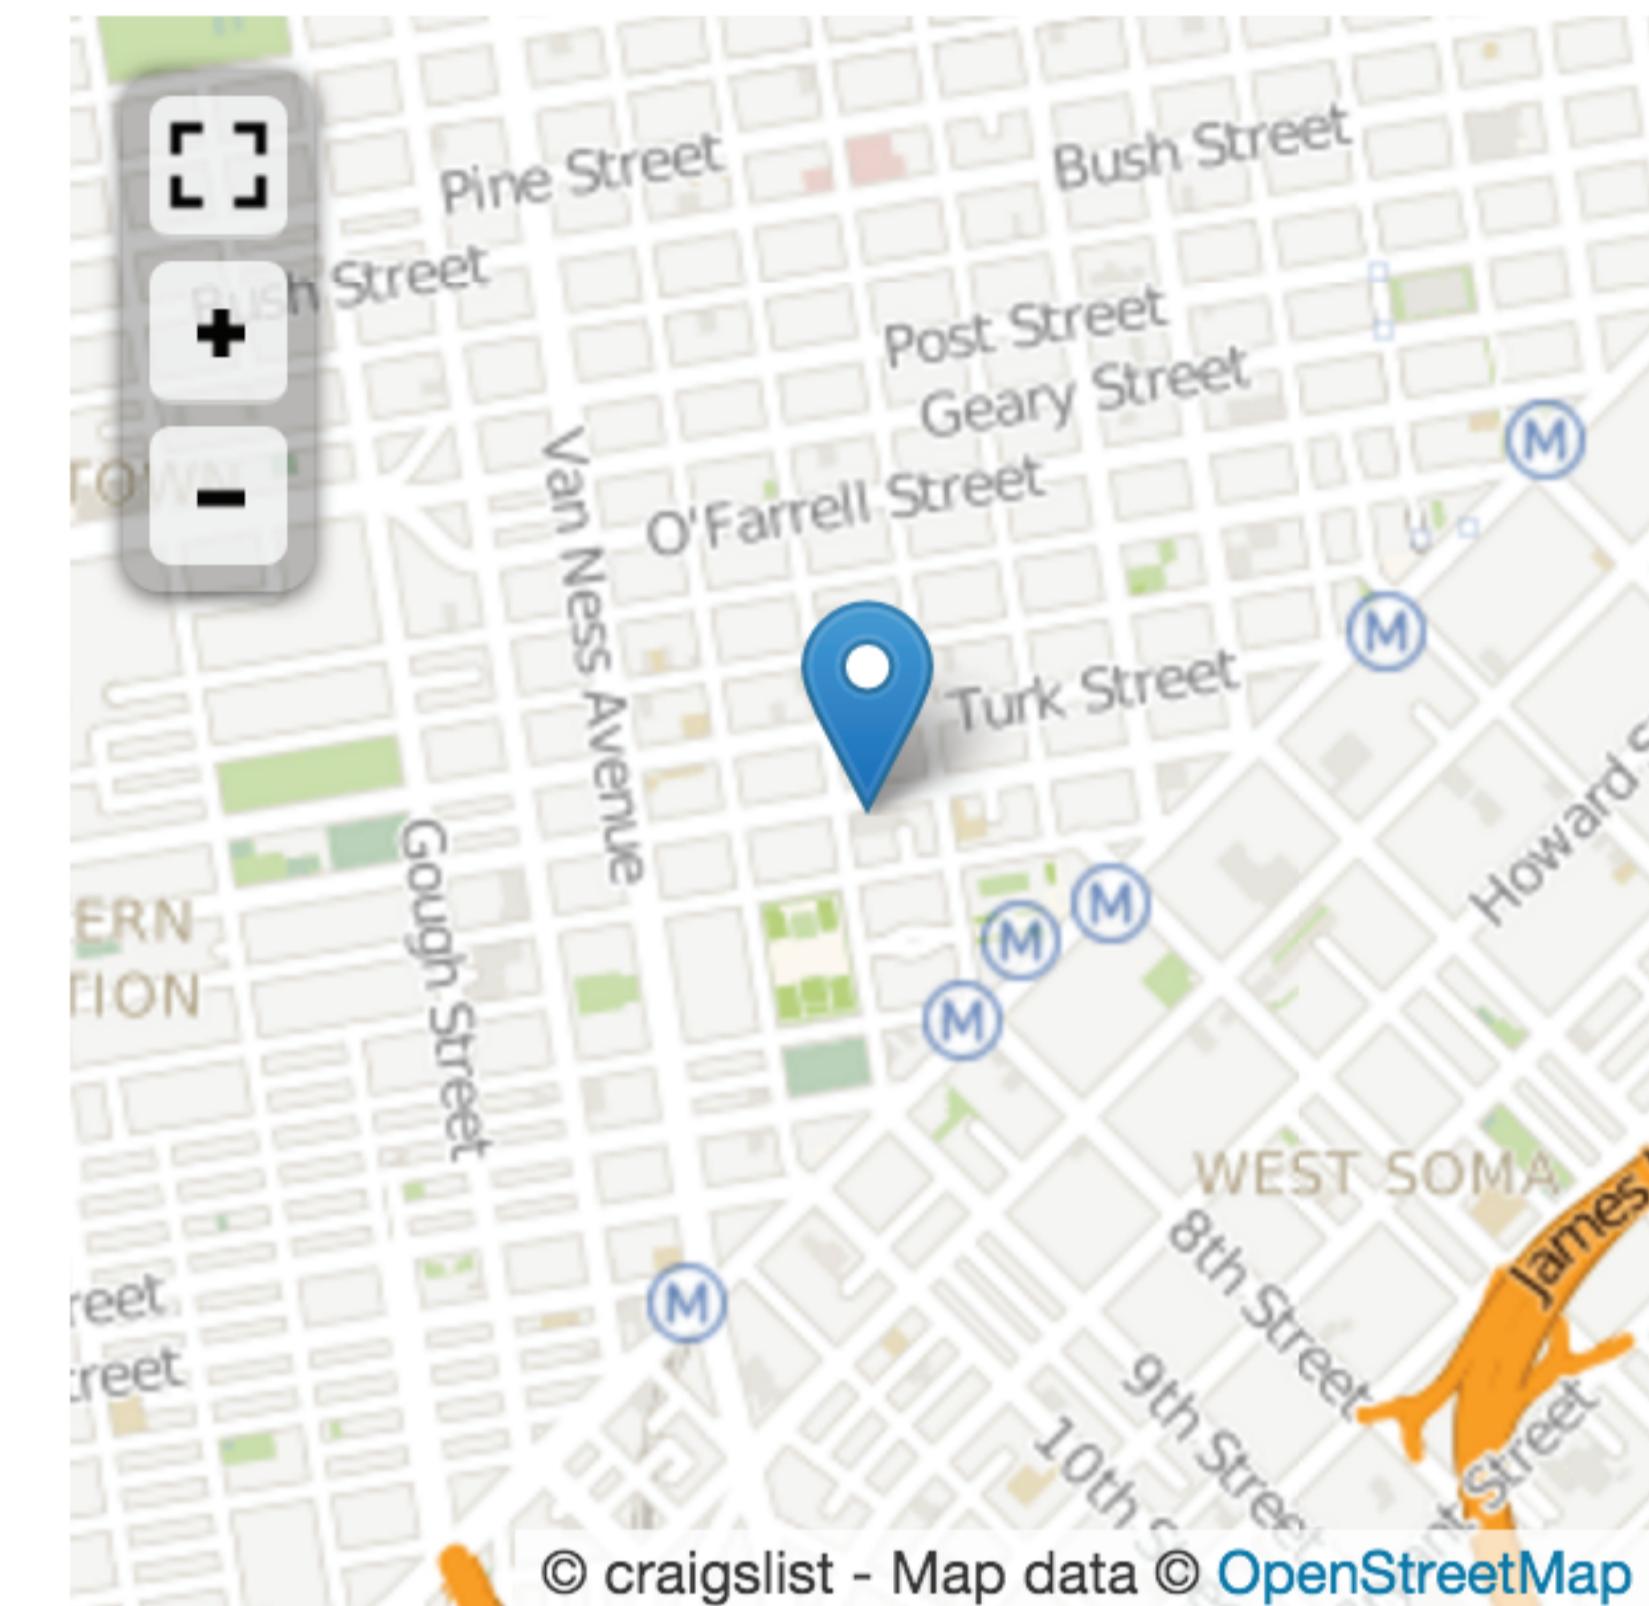

I remember the day we met
Both shy, but wanted to talk
Even when we tried
We didn't know what to say

Day by day
We took it slow
And our conversations began to grow

Since the day our conversations grew
I became very fond of you
Hoping you felt fond of me too

One night we had a talk
And now look where we're at
In the happiest place we can be
That is, in the relationship between you and me
